NEWVIEW LASER EYE AND JACQUELINE GRIFFITHS, M.D. CELEBRATE 5 YEARS AND THOUSANDS OF HAPPY EYES

***A WELL RESPECTED OPHTHALMOLOGIST IN THE COMMUNITY FOR OVER
TEN YEARS, DR. GRIFFITHS CELEBRATES HER FIFTH YEAR IN PRIVATE
PRACTICE AND SUCCESS WITH THE FIRST WOMAN-OWNED LASER EYE
CENTER IN THE WASHINGTON METROPOLITAN AREA.***

Reston, Virginia, November 22, 2004—Jacqueline D. Griffiths, M.D. of NewView Laser Eye in Reston, Virginia is pleased to announce the 5th anniversary of her successful private ophthalmology, aesthetic practice and laser eye center which officially opened it's doors on November 15th, 1999.

At the time of its opening, there were only three other centers, and they were corporately owned. Dr. Griffiths, along with Darren Jones, wrote a comprehensive business plan, researched office sites, planned and built from scratch what is now one of the most respected state of the art laser centers in the metropolitan area offering the latest in refractive technology and general ophthalmology services as well as aesthetic services. The popularity of the Center has largely grown through word of mouth. Dr. Griffiths is booked months in advance largely due to her personalized service, warm personality and depth of knowledge.

"I am pleased to offer my patients the very best in medical care that is available today while maintaining that old-fashioned personal relationship that is so often lost these days with managed care. I intentionally limit the patients I see and surgeries I will do so that I can give the personalized attention which patients deserve and desire," said Dr. Griffiths. "I am not into the numbers game. My game is quality of care. That is what is important to me and the patients I serve."

"The business plan for the next five years is in development now. We have already added Dr. Stacey Simms, a wonderful, talented and caring Optometrist to our team and we hope to bring another Ophthalmologist on board in the next year as we continue to grow. We hope to open a second office once the second Ophthalmologist joins us. In the coming year, we will be adding to our aesthetic practice by opening an Anti-aging center as an adjunct to the services we presently offer" states Jones, the Center Director, and CFO.

We are pleased to be a part of the Reston community and Fairfax County at large and ultimately hope to expand our operations further west in the future.

Jacqueline D. Griffiths has been performing laser vision correction since 1996. She has performed well over 10,000 procedures. Dr. Griffiths is excited about the ability to offer patients the latest advances in laser vision correction. Please call us at 703-834-9777 or toll free at 1-800-294-1001 for a consultation or with questions. Or, visit our web site at www.newviewlaser.com.
